Education:

University of Pittsburgh – Master of Library and Information Science, 2009

Carnegie Mellon University – MS, Electrical and Computer Engineering, 2005

University of Virginia – BS, Electrical & Computer Engineering - *With Highest Distinction*, 2003
Minors: Computer Science, Chinese Language & Culture

Selected Professional Experience:

Developer, September 2014 - December 2014

Center for Open Science

- Developed harvesters to fetch and normalize metadata from institutional and discipline repositories for the SHared Access Research Ecosystem (SHARE) notification service.
- Contributed expertise about metadata and library culture to the development of the SHARE system architecture and discussions of COS positioning/marketing to SHARE stakeholders.
- Wrote front-end (JavaScript, CSS, HTML5) and back-end (Python) code, including unit tests, for the Open Science Framework (OSF).
- Performed quality assurance testing on the OSF.

Web Services Librarian/Assistant Professor, October 2009 - September 2014

University of Alaska Anchorage/Alaska Pacific University Consortium Library

- Designed, maintained, and improved library websites and web services.
- Installed and customized open-source web applications (e.g. LibStats, phpScheduleIt, Omeka - PHP/MySQL) and led the acquisition and implementation of vendor-supplied applications (e.g. LibGuides, LibAnswers), including coordinating policy development around their use.
- Wrote a plan for development of the library's web presence and related documents, including Best Practices for Topic Guides and Library Social Media Marketing Plan.
- Trained and supported colleagues in the use of web-based technologies.
- Chaired Web Development and Social Media Team; served as Acting Head of Systems in department head's absence (approximately 14 weeks).

Senior Consultant, June 2006 - February 2008

Booz Allen Hamilton

- Supported US DOT's Vehicle Infrastructure Integration (VII, now Intellidrive) program as a wireless systems engineer, software requirements analyst, and project manager.
- Wrote sections of, managed subcontractors' input to, and coordinated/edited 60+ team members' contributions to the VII System Requirements Specifications.
- Refined document creation workflows, increasing documents' accuracy and decreasing creation time significantly.
- Analyzed/edited requirements for VII subsystems and applications, maintaining and updating requirements in Rational Requisite Pro.

Research Assistant, June 2003 - August 2005

Carnegie Mellon University - Electrical & Computer Engineering Department

- Designed and implemented experiments that created large data sets; analyzed data in MATLAB.
- Provided engineering expertise to PennDOT's Tunnel Radio project, helping to design and build a system to retransmit AM and FM radio into two of Pittsburgh's tunnels.

Selected Honors and Awards:
