## Education:

**University of Pittsburgh** – Master of Library and Information Science, 2009

**Carnegie Mellon University** – MS, Electrical and Computer Engineering, 2005

**University of Virginia** – BS, Electrical & Computer Engineering - *With Highest Distinction*, 2003  
Minors: Computer Science, Chinese Language & Culture

## Professional Experience:

*Reference Librarian*, October 2017 - present

### **Community College of Allegheny County**

- Assisted patrons at the reference and circulation/reserves desks.
- Taught bibliographic instruction sessions and served on a multi-campus workgroup geared toward improving information literacy instruction throughout the college.
- Updated MARC records and holdings information in Sirsi WorkFlows.
- Ran reports from WorkFlows, to assist with weeding projects; improved reports using OpenRefine; weeded the Reference collection.
- Created and updated LibGuides.

*Librarian and Web Developer*, December 2014 - present

### **Freelance/Self**

- Updated and converted the University of Maryland College of Information Studies course INST 630, Introduction to Programming for the Information Professional (in JavaScript), to online format and taught a section in fall 2016.
- Located books, articles, theses, and conference proceedings; verified authenticity and date of public availability; and wrote declarations attesting to those findings for use in patent litigation.
- Maintained and updated websites, primarily in WordPress.

*Web Services Librarian/Assistant Professor*, October 2009 - September 2014

### **University of Alaska Anchorage/Alaska Pacific University Consortium Library**

- Designed, maintained, and improved library websites and web services.
- Chaired Web Development Team; and proposed, designed, and chaired Social Media Team.
- Wrote a plan for development of the library's web presence and follow-up documents, including Best Practices for Topic Guides and Library Social Media Marketing Plan.
- Trained and supported colleagues in the use of web-based technologies.
- Served as liaison to/collection developer for School of Engineering.
- Provided in person, phone, and online reference service.
- Installed and customized open-source web applications (e.g. LibStats, Omeka - PHP/MySQL) and led acquisition and implementation of web applications purchased from vendors (e.g. LibGuides, LibAnswers), including coordinating policy development around their use.
- Managed multiple content management systems, including MODX, WordPress, LibGuides, and Open Atrium (a constrained form of Drupal).
- Performed usability testing on websites and vendor-supplied applications.
- Served as Acting Head of Systems in department head's absence (approximately 14 weeks).

*Information Assistant, December 2008 - August 2009*

**Carnegie Mellon University - Institutional Repository** (Field Placement, Spring 2009)

- Utilized SHERPA/RoMEO database and web to research publishers' copyright policies.
- Uploaded documents into Digital Commons institutional repository and assigned Dublin Core metadata.

*Information Assistant, August 2008 - August 2009*

**Carnegie Mellon University - Engineering & Science Libraries**

- Answered reference questions in person and remotely, utilizing engineering and science e-journals, databases, and print resources.
- Processed book donations.
- Created an engineering library blog and assisted colleagues in redesigning sections of the library website.

*Summer Library Assistant, April 2008 - August 2008*

**Brentwood Public Library**

- Answered patrons' reference and circulation questions, provided readers' advisory services, and assisted with computers.
- Checked materials into and out of the library, shelved materials, repaired damaged materials, and processed new materials.
- Assisted with adult programming, including an "Intro to Blogging" class.

*Senior Consultant, June 2006 - February 2008*

**Booz Allen Hamilton**

- Supported US DOT's Vehicle Infrastructure Integration (VII, now Intellidrive) program as a wireless systems engineer, software requirements analyst, and project manager.
- Wrote sections of, managed subcontractors' input to, and coordinated/edited 60+ team members' contributions to the VII System Requirements Specifications.
- Refined document creation workflows, increasing documents' accuracy and decreasing creation time significantly.
- Analyzed/edited requirements for VII subsystems and applications, maintaining and updating requirements in Rational Requisite Pro.
- Contributed to several proposal teams, writing a key technical section of a \$93M proposal and writing as well as editing/coordinating authors' contributions to a \$6M proposal.
- Recruited and interviewed candidates for hire.

*RF Engineer, September 2005 - May 2006*

**i5 Wireless, LLC**

- Led the company's research and development initiatives, designing and testing antennas for use in waveguides within novel in-building wireless installations.
- Monitored and performed maintenance on existing systems inside government buildings, including the Securities and Exchange Commission and three Library of Congress buildings.
- Provided information about new wireless trends and emerging technologies to management.
- Interfaced with vendors, both in coordinating the setup of the company's new office and in procuring wireless test equipment.

*Research Assistant, June 2003 - August 2005*

**Carnegie Mellon University - Electrical & Computer Engineering Department**

- Performed research as part of the Antenna and Radio Communication (ARC) group and Center for Wireless and Broadband Networking.

- Designed and implemented experiments that created large data sets; analyzed data and created visualizations using MATLAB.
- Provided engineering expertise to Penn DOT's Tunnel Radio project, helping to design and build a system to retransmit AM and FM radio into two of Pittsburgh's tunnels.
- Maintained the ARC's website.

## **Honors and Awards:**

- 2017 NASA Datanaut
